Knights of Columbus  
3310 Florida Avenue  
Kenner, LA

Well folks, another year is in the books and a brand new year has begun. The new year ushers in new opportunities as well as new challenges. For me personally the year has started off with some challenges. I've had some health problems that are still dogging me which is why this months newsletter is late in getting to you. Not a good way to start the year. I hope to get back into the swing of things soon and deliver you an informative and timely newsletter each month. Last year was my first year as your

## Coin Fun Facts

**How much was in that first batch?** The Mint produced its first circulating coins—all \$111.78 worth of them—in March 1793. That first batch consisted of 11,178 copper cents. Soon after, the Mint began issuing gold and silver coins as well.

**Ben Franklin helped to stop counterfeiters...** In the 1700s, it was pretty easy to print money that looked real. But it was Franklin who finally hit on a good idea in 1739: He cast real leaves in lead and called it the "nature print." He kept the process so secret that no one figured out how he did it until the 1960s.
